<p>DEPARTMENT OF DEFENSE</p> <p>Department of the Army</p> <p>Availability of the Draft Finding of No Significant Impact and Final Programmatic Environmental Assessment for Army 2020 Force Structure Realignment</p> <p>AGENCY: Department of the Army, DoD. ACTION: Notice of availability.</p> <p>SUMMARY: The Department of the Army announces the availability of the draft Finding of No Significant Impact (FNSI) and final Programmatic Environmental Assessment (PEA) for Army force structure realignments that may occur from Fiscal Years (FYs) 2013–2020. The Army must achieve force reductions as it transitions from major combat operations in Iraq and Afghanistan, while reducing spending without sacrificing critical national defense capabilities. The draft FNSI considers a proposed action under which the Army's active duty end-strength would be reduced from 562,000 at the end of FY 2012 to 490,000 by FY 2020. The PEA analyzes two action alternatives: Alternative 1: Implement force reductions by inactivating a minimum of eight Brigade Combat Teams (BCTs) and realign other combat, combat support, and service support units between FY 2013 and FY 2020; and Alternative 2: Implement Alternative 1, inactivate additional BCTs, and reorganize remaining BCTs by adding an additional combat maneuver battalion and other units. The PEA also analyzes a No Action alternative under which the Army would not reduce the size of the force. The draft FNSI incorporates the PEA which does not identify any significant environmental impacts associated with either alternative, with the exception of socioeconomic impacts at some installations where a BCT is inactivated and smaller organizations realigned. The draft FNSI concludes that preparation of an Environmental Impact Statement (EIS) is not required. Final decisions as to which installations will see BCTs inactivated or units realigned have not been made. Additional site-</p>							

A.2.1 General Agency Letter

**DEPARTMENT OF THE AIR FORCE
AIR FORCE CENTER FOR ENGINEERING AND THE ENVIRONMENT
LACKLAND AIR FORCE BASE, TEXAS**

MEMORANDUM FOR SEE DISTRIBUTION LIST

FROM: AFCEC/CZN

SUBJECT: ENVIRONMENTAL IMPACT STATEMENT (EIS) FOR THE PROPOSAL TO RELOCATE THE 18TH AGGRESSOR SQUADRON (18 AGRS) FROM EIELSON AIR FORCE BASE (EAFB), ALASKA TO JOINT BASE ELMENDORF-RICHARDSON (JBER), ALASKA AND TO RIGHT-SIZE THE REMAINING WING OVERHEAD/BASE OPERATING SUPPORT AT EIELSON AFB, ALASKA.

1. Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, and its implementing regulations, the United States Air Force (USAF) intends to prepare an EIS to analyze the potential impacts on the human environment from the proposal to relocate the 18 AGRS from EAFB to JBER, Alaska. The proposed action includes the relocation of twenty-one (21) F-16 aircraft and supporting units, the relocation of certain military and civilian personnel, reduction of military and civilian personnel at EAFB, facility modifications at both EAFB and JBER, and continued training activities in existing military airspace. The attached Description of Proposed Actions and Alternatives provides details of the action for your review.
2. The USAF has published a Notice of Intent to prepare an EIS on this proposal. Publication of the NOI in the *Federal Register* initiates the public involvement process. Public scoping meetings will be held: Feb. 4, 2013, 6:00 p.m., Alaska State Fairgrounds, Hoskins Building, Palmer; Feb. 5, 6:00 p.m., Tyson Elementary School, 2801 Richmond Avenue, Anchorage; Feb. 6, 12:00 noon and 6:00 p.m., Fairbanks Princess Riverside Lodge, Fairbanks; Feb. 7, 6:00 p.m., North Pole High School, North Pole. Meeting Notices have been published in local newspapers.
3. In an effort to analyze the potential impacts of the proposed action, the USAF or its contractor, SAIC, may contact you in their data collection efforts. Please provide your comments or requested information not later than March 1, 2013 in order to be considered during the development of the Draft EIS.
4. If you have any specific questions about the proposal, we would like to hear from you. Mr. Allen Richmond, NEPA Project Manager, may be reached at: 2261 Hughes Ave, Ste 155, Lackland AFB, TX 78236-9853; (210) 395-8555; or allen.richmond@us.af.mil. General questions may be directed to MSgt Michael Hammond, Pacific Air Forces Public Affairs at: PACAF/PA, 25 E. Street, Ste. G-108, JBPH-H, HI 96853; (808) 448-3227; or michael.hammond@us.af.mil. In advance, we thank you for your assistance in this matter.

MEMORANDUM FOR THE CHICKALOON NATIVE VILLAGE
ATTN: MR. GARY HARRISON, TRADITIONAL CHIEF; AND
MR. DOUG WADE, CHAIRMAN

FROM: 673 ABW/CC
10471 20th Street, Suite 139
JBER AK 99506-2200

SUBJECT: Government-to-Government Communications Query for AFCEC Memorandum

1. The Air Force Civil Engineer Center (AFCEC) is conducting Environmental Impact Statement (EIS) actions to analyze the effects of relocating the 18th Aggressor Squadron from Eielson AFB to Joint Base Elmendorf-Richardson (JBER). Unfortunately, AFCEC has not yet received a response to their attached letter or input from the Chickaloon Native Village during the public involvement meetings. We want to ensure you have had an opportunity to inform us of any issues that may significantly affect any tribal right(s) or protected resource(s). Therefore, we ask you to please contact our Native Liaison, Mr. Jon Scudder at 384-6648, to arrange a time that is mutually convenient.
2. We value our continued partnership and would greatly appreciate your review and comment. To ensure we keep our EIS actions on our necessary timeline, we will respectfully assume your concurrence if no reply is received within 30 days. Thank you again, and we look forward to consulting with you on plans and projects that may be important to the Chickaloon Native Village.

Re: Anchorage Joint Base Elmendorf Richardson squadron relocation *Consultation Number* 2013-0086

Dear Mr. Richmond,

Thank you for the letter we received on May 10, 2013, regarding wildlife species that may be affected by your proposal to relocate the 18th aggressor squadron (18 AGRS) from Eielson Air Force Base (EAFB), Alaska to Joint Base Elmendorf Richardson (JBER), Alaska. The proposed action includes the relocation of twenty-one (21) F-16 aircraft and supporting units, the relocation of certain military and civilian personnel, reduction of military and civilian personnel at EAFB, facility modifications at both EAFB and JBER, and continued training activities in existing military airspace. The U.S. Fish and Wildlife Service (the Service) is providing this list of threatened and endangered species in accordance with section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq., as amended, ESA).

There are no federally listed or proposed species and/or designated or proposed critical habitat within the action area. ***Therefore, no further coordination with the Service regarding threatened and endangered species is required.*** However, obligations under section 7 of the ESA must be reconsidered if new information reveals project impacts that may affect listed species or critical habitat in a manner not previously considered, if this action is subsequently modified in a manner which was not considered in this assessment, or if a new species or critical habitat is listed that may be affected by the proposed action.

This letter relates only to federally listed or proposed species and/or designated or proposed critical habitat. It does not provide coverage for the authorities of the National Marine Fisheries Service, the Fish and Wildlife Coordination Act, Migratory Bird Treaty Act, Marine Mammal Protection Act, Clean Water Act, National Environmental Policy Act, or Bald and Golden Eagle Protection Act. The following recommendations are voluntary measures that if adopted, will reduce the possibility of violating the Bald and Golden Eagle Protection Act or the Migratory Bird Treaty Act:

- In areas that are currently undeveloped and/or covered with intact vegetation, conduct all ground-disturbing work and vegetation removal during periods of time outside of the migratory bird breeding season. See the attached guidelines for specific timing windows.
- In areas where nesting bald eagles may be found, survey all areas within a ½-mile radius of project work to determine whether existing bald eagle nests occur there. If nests are found, contact the Service for additional recommendations to avoid disturbance.

Thank you for your concern regarding threatened and endangered species. If you have any questions, please contact me at (907) 271-2066.

Sincerely,

Kimberly J. Klein
Endangered Species Biologist
